Research interests

Economic sociology, social policies, welfare systems, work and family, labor market, social inequality and social vulnerability, young studies.

Grants

2016 - ONGOING

Young Adult H2020

EU H2020

Participant

The international comparative research project “**Policies supporting young Adults in their life course. A Comparative Perspective of Lifelong Learning and Inclusion in Education and Work in Europe**”, in short **YOUNG_ADULLLT** starts at this point by focusing on the various lifelong learning policies (LLL) for young adults and analysing their potentially competing (and possibly ambivalent) orientations and objectives. The objective is to yield insights into their implications as well as intended and unintended effects on young adult life courses. **YOUNG_ADULLLT** aims at critically analysing current developments of LLL policies in Europe in order to prevent ill-fitted policies from further exacerbating existing imbalances and disparities as well as at identifying best practices and patterns of coordinating policy-making at local/regional level.

2011 - 2013

The professions of public space beyond the crisis

MIUR PRIN - IT

Participant
