Teaching activity

Chemistry (Bachelor Courses Biomedical Engineering and Computer Engineering)

Chemistry and Biochemistry, mod. 1 (Master Course Bioengineering)

Environmental Chemistry and Processes, mod. Chemistry of Environmental Processes (Master Course Environmental Engineering)

Research interests

Heterogeneous catalytic materials and processes; Solid adsorbent materials for environmental applications, gas separation and purification (i.e.CO₂ capture); Spectroscopic characterization of surfaces and surface chemistry of oxides, mixed oxides, composite materials for industrial and biomedical applications.
