

Rodolfo Botter

Associate professor

✉ rodolfo.botter@unige.it

☎ +39 0103536036

Education and training

1990

School of Specialization in 'Science and Technology of Materials' of the Faculty of Sciences (UniGe)

108/110

University of Genoa - Genova - IT

1980

Degree in Chemical Engineering

Kinetic and morphological study of the decomposition of blocks of calcareous material under a low pressure regime. - 110/110

Genoa University - Genova - IT

Academic experience

2004 - ONGOING

Associate professor

University of Genoa - Genova - IT

Teaching Materials Science and Technology

Work experience

1981 - 1982

Product manager at the chemical industry for the pressing and rolling oil sector. (1981)

Houghton s.p.a. - Genova - IT

Product manager

1985 - 2003

Since 1985 Technician Graduate Technician and subsequently EP at the Faculty of Engineering of the University of Genoa

University of Genoa - Genova - IT

Technical manager of the materials engineering laboratory

Language skills

Italian

Mother tongue

English

Independent

Teaching activity

Teaching 'Science and Technology of Materials' and 'Ceramic Materials' (ING-IND / 22) for Chemical Engineering and Materials Technology and Applied Chemistry at 'Science of Architecture (L17)' course.

Research interests

Traditional Ceramic Materials
Ceramic materials for fuel cell
Binder materials for building.
Chemical-physical characterization of materials
