**2018 - IN CORSO**

#### **Professore Ordinario di Lingua e Linguistica Inglese**

Dipartimento di Lingue e Culture Moderne

### ***Interessi di ricerca***

My research interests, both theoretical (e.g., Cognitive Linguistics, Construction Grammar) and applied (e.g., language teaching, lexicography, translation), encompass the construction of meaning at the various levels of the linguistic and textual organization with the aim of identifying, also contrastively, the close-knit correlation between language structures and conceptual systems.
