Independent

## ***Research interests***

Orsola Razzolini has been interested in several research topics such as the concept of employer in groups of companies, the concept of employment subordination and the main differences between employment and self-employment, employee's personal damages, collective action and right to strike.

These topics have been always investigated from both a comparative and EU perspective, by taking advantage of several research periods spent in International Universities such as the London School of Economics and Political Science, the University of Illinois Urbana-Champaign, the University of Luxembourg.

Also the interdisciplinary perspective is taken into account. Notably, company law and civil procedure.
