Postgraduate research and teaching activity

PhD committees membership

From 08-04-2015 (in progress) I take part in the Teaching Committee of the Doctoral Program in Social Sciences XXXI cycle at the University of Genoa.
 From 16-02-2016 (in progress) I take part in the Teaching Committee of the Doctorate in Social Sciences XXXII cycle at the University of Genoa.
 From 15-05-2017 (in progress) I take part in the Teaching Committee of the Doctorate in Social Sciences XXXIII cycle at the University of Genoa.

Postgraduate (PhD) teaching activity

I worked as a lecturer in the School of the Doctorate in Social Sciences, XXIX cycle, year 2014, XXX cycle, year 2015, XXXI cycle, year 2016, XXXII cycle, year 2017, teaching topics: 'The participatory evaluation'; 'The theory-driven evaluation'; 'Evaluation of public policies'; 'Evaluation approaches'

Research interests

My research interests are centered on the evaluation of public policies, with particular regard to social and training policies and labor policies. In this macro-sphere a particular focus concerns the methodological aspects and the participation of the stakeholders in the evaluative research paths aimed at producing judgments on public policies, also in relation to the democratization of the decision-making processes that concern them. Specific areas of interest concern: the social capital and the mechanisms of production of social capital in the evaluation processes; participative and theory-guided evaluation approaches; participatory evaluation of social policies; research methods and techniques for participation and e-participation; research methods and techniques for the participatory construction of program theory; addictions and new dependencies; the evaluation of interventions on addictions with particular regard to the therapeutic community; mental health disorders; the evaluation of interventions for the social and work inclusion of people with psychiatric disorder; the evaluation of the paths of social and working reintegration from the prison; the evaluation of occupational outcomes of vocational training; methods and techniques for building indicators; the characteristics, and the use of indicators under evaluation; the use of indicators and indices for the evaluation of educational effectiveness; evaluation of policies and services for the inclusion of students with disabilities and with DSAs in schools and universities; the right-duty to education; school, training, human capital and labor market in Liguria; social change in Genoa and social distance; social and health inequalities; the influence of environmental factors and lifestyles on the spread of diseases, with particular regard to oncological ones.

Grants

2004 - 2007

Social distance in some urban areas in Italy

Ministry of Education University and Research - IT

Participant

The research had as fundamental objectives: a) the definition of the theoretical and methodological framework and the creation of tools and indicators aimed at operationalizing the concept of social distance in the current historical-social framework; b) the detection of the attitudes of some of the social groups in the Italian urban areas examined; c) the comparison of trends in the different urban areas based on local factors. A survey on the social distance in the areas of Rome, Naples, Milan, Genoa, Bari, Reggio Calabria, Messina and Palermo was thus carried out.

2004

Université Cooperative Européenne

European Commission - Leonardo Program

Participant

European pilot project funded by the Leonardo Program promoted by the

grouping of the Cooperative Colleges of France and concerning the production and testing of innovative training modules for the social entrepreneur. They took part in the training bodies and universities of France, Belgium, Italy and Portugal and experts from CECOP (Brussels), FEVECTA (Spain), the University of Berlin and CNAM (Paris).

2005 - 2007

E-Le-Change

European Commission - EQUAL Community Initiative

Participant

European project concerning the training of management personnel for third sector organizations, with German, Spanish and Slovak partners.

2005 - 2007

Université Cooperative Européenne en réseau

European Commission - Leonardo Program

Participant

European project financed under the Leonardo da Vinci 2002 - 2004 Program and promoted by the grouping of the French Cooperative Colleges. The project was attended by training institutions and universities of France, Belgium, Italy and Portugal and experts from CECOP (Brussels), FEVECTA (Spain), the University of Berlin and CNAM (Paris).

2006 - 2009

AQUARING

European Commission - E-Content Program

Participant

European project funded under the EU E-Content Program (ECP-CULT 038261-AquaRing). The project with Italian partners (COSTA EDUTAINMENT SpA - Genoa Aquarium, University of Genoa, Softeco Sismat), Dutch (Stichting Koninklijke Rotterdamse Diergaarde), Spaniards (TECNALIA Robotiker), Lithuanian (Lietuvos Juru Muziejus) French (Societe D'Exploitation Du Center National De La Mer) and Belgians (Association Europeenne Des Expositions Scientifiques, Techniques Et Industrielles, Institut Royal Des Sciences Naturelles De Belgique) aimed at enhancing the information heritage related to the aquatic world in the possession of the participating institutions, through the digitization and a network of locally stored content and the construction of a semantic ontology shared by experts from various fields of biology and natural sciences in the various countries which, based on the preliminary analysis of user needs, allowed the semantically oriented fruition of such contents, appropriately indexed.

2015

PON VALES nelle Regioni Obiettivo (Calabria Campania Puglia e Sicilia) h-9-fse-2013-1

European Commission - IT

Participant
